

UAV ZONES MAP

This map shows the Pikes Point Heliport operational area and where unmanned aerial vehicles (UAV's – drones and model aircraft) can operate safely without permission. This map is a general guide to the areas of the operation zones and their restrictions. If further clarification is required please email a location map to fly@advancedflight.co.nz

LEGEND

Operation zones shown within 4km of Pikes Point Heliport (NZPK)

PROHIBITED AREA

Operation within the red shaded area is prohibited. Pikes Point Heliport operates 24 hours a day, seven days a week.

PERMITTED AREA (TO 200FT)*

Operation within the blue shaded area is permitted up to 200ft without permission from the heliport operator.

PERMITTED AREA (TO 400FT)*

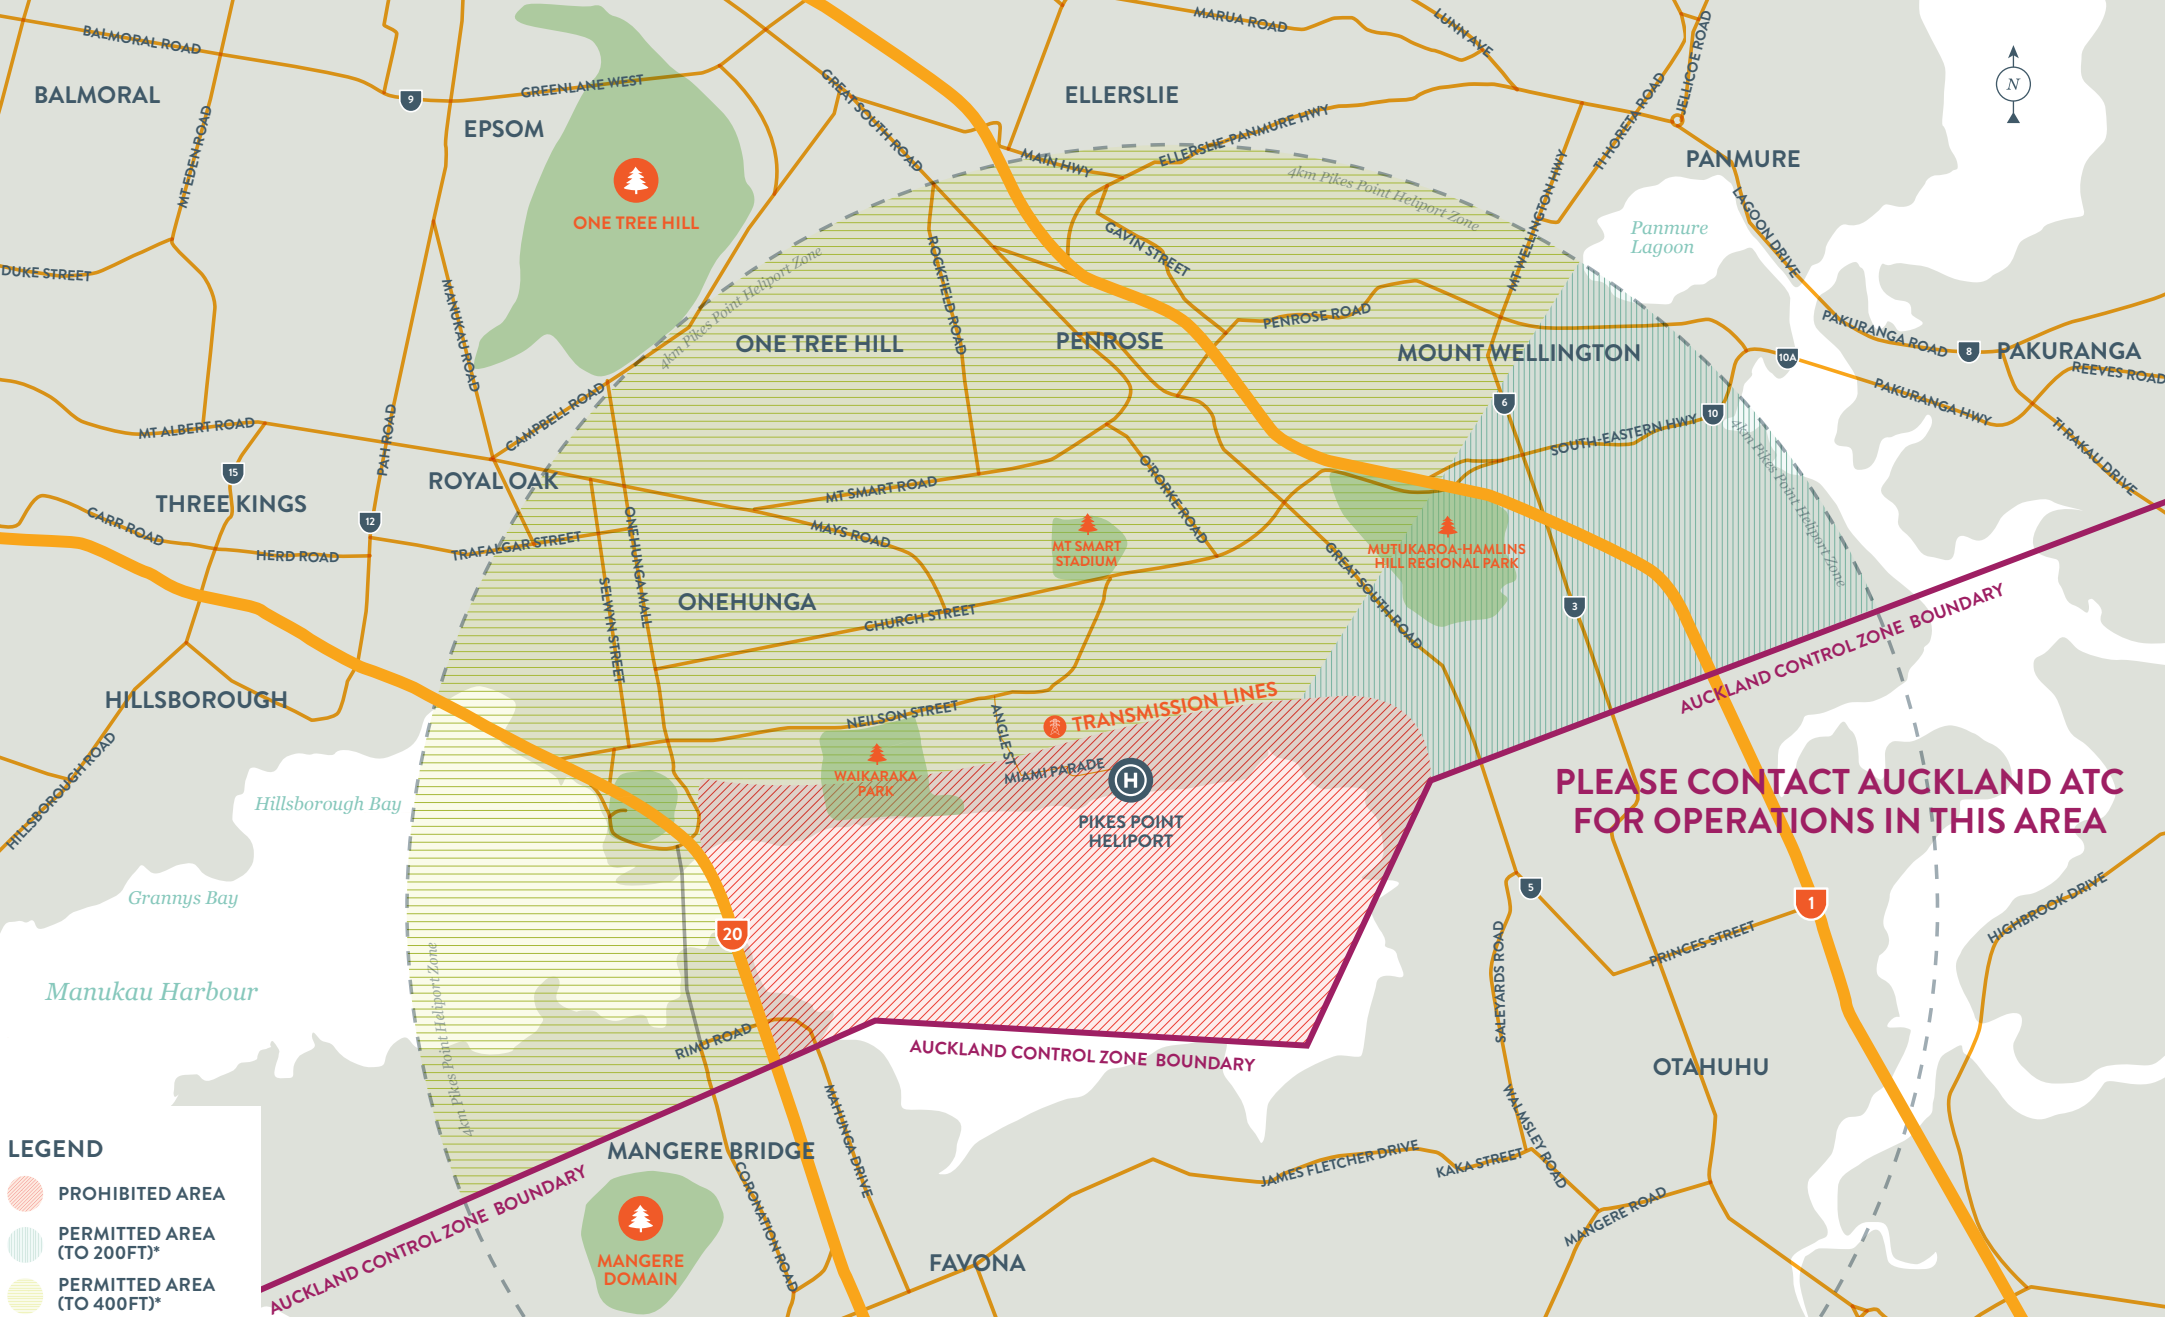

Operation within the green shaded area is permitted up to 400ft without permission from the heliport operator.

* The drone/model aircraft operator must hold a pilot qualification in accordance with CAA Rule Part 101.

Please note this map isn't to scale.
